

TROXI M-DT

Each uncoated dispersible tablet contains:

Composition:

Cefixime USP as trihydrate equivalent to

Anhydrous Cefixime..... 100 mg

Anhydrous Cefixime..... 200 mg

Indications:

Respiratory tract infections (including ear, nose and throat infections) Caused by group A beta-haemolytic Streptococci. Skin and skin structure infections Caused by Staphylococci (including coagulase-positive, coagulase-negative and penicillinase producing strains) and Streptococcus pneumoniae.

Description:

Like all beta-lactam antibiotics, cefixime binds to specific penicillin-binding proteins (PBPs) located inside the bacterial cell wall, causing the inhibition of the third and last stage of bacterial cell wall synthesis. Cell lysis is then mediated by bacterial cell wall autolytic enzymes such as autolysins; it is possible that cefixime interferes with an autolysin inhibitor.

Dosage :

Disperse one tablet in 5ml (one teaspoonful) of boiled and cooled water immediately before use

Presentations :	MRP	Retailer	Stockist
100 mg	115.00	92.00	82.80
